## Education

### Charleston Southern University

Bachelors of Technology in Computer Science  
Graduation date : May 2020  
Final GPA : 3.595

### Midlands Technical College

Associates in Electronic Engineering Technology  
Graduation date : December 2019  
Final GPA: 3.379  
Internship: Michelin North America

## Key Skills

Time Management  
Teamwork  
Communication  
Problem Solving  
Critical Thinking  
Organization

## Certifications

### Electrical Control Technology

200 hours  
Awarded: August 2020

### Industrial Mechanical Theory

200 hours  
Awarded : January 2021

## Objective

Highly motivated graduate from Charleston Southern University with a Bachelors of Technology in Computer Science. Strong organizational and networking skills, and the ability to communicate effectively in a team-oriented environment. Seeking a Software Engineering position to utilize knowledge of engineering fundamentals and the ability to utilize software in creating new solutions

## Experience

### August 2018 - Present

Reliability Technician • I work as an electrical and mechanical troubleshooter for Michelin in tire preparation. From my 2 years at Michelin I have gone from a part time intern to a level 2 full time employee completing 400 hours of additional on the job training. • Michelin North America

### 2016 - 2018

Care Team • I worked as a part of a surgical care team for Palmetto Health Orthopedics • Palmetto Health

### 2011 - 2016

Food and Service • I worked as a bartender, server and shift leader • Outback Steakhouse.

## Communication

- February 2020 – involved in group work project. My team investigated on going issues with a machine, formulated a plan to make the machine more efficient. We worked together over the course of weeks to implement the plans successfully.
- July 2020 – collaborated remotely with classmates on a group programming project. Multiple team members with individual responsibilities communicated effectively to produce a movie ticketing booth application.
